# Building Automation Services Profile

## About Us

Athena Engineering, Inc. specializes in the design, construction, and integration of building systems. We've been around for over 36 years and have developed the capability to provide an integrated cycle of services to design, build, and maintain new or existing facilities. Located in the heart of Southern California, we service from Santa Barbara down through San Diego. **This line card is hyperlinked - please click on the links to see more info.**

## Our Services

### CONSULTING

#### MEP Design-Assist

In-House Building Automation  
Design

#### Facility Evaluations

Building Automation System Surveys  
System Troubleshooting & Repair

#### Facility & Project Planning

Construction Feasibility Studies  
Preconstruction Budgeting

#### Training

### CONSTRUCTION

#### Building Automation System Design & Installation

Open Systems via BACnet & LON  
HVAC Controls  
Video Surveillance  
Access Control Systems

#### Growhouse & Agricultural Controls

#### Service & Maintenance

On-Call Service  
Maintenance Plans

### INTEGRATION

#### Building Intelligence Management

Integration of building ecosystem  
Power & Power Quality Monitoring  
Building Analytics  
Energy Dashboards

Lighting, Drapes, Door & Window  
Contacts Integration

#### Remote Building Management
